linfodrainer

DRAIN AND FLOW,
FOR A NEW SENSATION OF FREEDOM.

PANESTETIC
FUTURE FOR BEAUTY™

Swelling legs. Water retention. Lymphatic system slow down.

Every woman knows these **issues**
and faces every day these beauty imperfections.

The solution is Linfodrainer, technology which belongs to the Essential line by Panesthetic Technology, developed to boost the results of the cosmetic treatments and massages.

Thanks to the different protocols of **Linfodrainer**, the beauty therapist can create customizable treatments depending on the needs of each customer.

Linfodrainer is a new interpretation of the traditional lymphatic drainage, a complex massage method suitable to treat water retention, swelling, orange-peel skin and cellulite.

Pleasant, relaxing and very effective, **Linfodrainer** works with three hand pieces that fit perfectly on all body areas.

Through an **adjustable decompression** system, **Linfodrainer** exerts delicate, constant or rhythmic suctions, for **an effective and draining effect.**

Drainage, unstick the tissues, removal of toxins.

The result is an amazing feeling of lightness, a deep relaxing experience and a valuable help to re-gain a toned body.

The treatment with **Linfodrainer** is maximized in combination with the cream **Activa** of the **Electra Tech Cosmetics**, which promotes the optimal movement of the hand piece during the mechanical drainage with vacuum, adding the benefits of precious vegetable oils. **Body Luxury Drain and Slim** bandages are fundamental for an immediate feeling of well-being, leg lightness and velvet skin.

ACTIVE INGREDIENTS

Argan oil with protective and antioxidant action,
Baobab oil against skin aging,
Hydrolysed GAG that favor the synthesis of endogenous hyaluronic acid,
Fucus Algae which stimulates the metabolism,
