PANESTETIC
FUTURE FOR BEAUTY™

Direct action on wrinkles, scars, pigmentation spots, stretch marks and skin imperfections.

Go beyond boundaries. Go deep.

The skin is a natural barrier and for this reason it hinders the work of the beauty therapist, which may obtain poor results, not visible.

Dermopeel is the solution which opens the doors to a deep work. The intensive exfoliation thanks to the mechanical action of small fragments of diamonds placed on the tips, prepares the skin

The drainage, performed thanks to the vacuum suction, cleans deeply and accelerates the tissue regeneration processes.

So that the skin, perfectly exfoliated and deeply clean becomes particularly receptive, detoxed, it breathes, it becomes lighter and it is prepared to receive the best from any following treatment.

9 diamond tips for a precious skin.
