

ADIPOSIITY OR CELLULITE?

ELECTRA TECH COSMETICS
HAS A **TARGETED ANSWER**
FOR EVERY NEED!

FOR **CELLULITE** AND
WATER RETENTION

DRENIOCELL

ANTI-WATER SHAPING
GEL CREAM

Gel cream cosmetic treatment containing **active ingredients with draining action** that contribute to the elimination of excess fluids. The light and **easy-to-apply** texture is absorbed quickly, without greasiness. Thanks to innovative **NIO Technology**, active ingredients are delivered and released with a **targeted action**, through niosomes.

The result? Maximum effectiveness and **restoration of microcirculation tone** to visibly reduce the appearance of orange peel skin.

FOR **EXCESS**
ADIPOSIITY

LIPODRON

INTENSIVE REDUCING
BODY CREAM

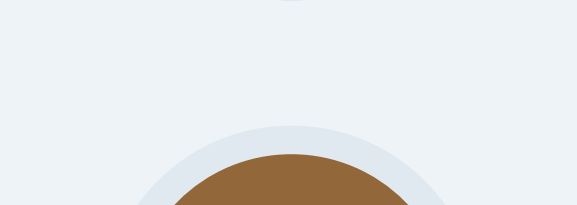

Cosmetic treatment to effectively reshape **adipose accumulations** present in the **waist and abdomen-hip area**.

The innovative **Cosmetic Drone™ Technology**, together with a mix of functional ingredients, **reshapes the silhouette** by treating imperfections in areas with localized fat deposits.

The product's **warming action*** can promote superficial microcirculation and facilitate the **mobilization of excess fluids**.

ACTIVE INGREDIENTS

DRENIOCELL

NIO-TECHNOLOGY

Innovative technology that uses niosomes to **deliver and release active ingredients deeply and gradually**. Caffeine, Beta Escin, and Coleus Forskohlii are encapsulated within the niosomes to be transported to the hypodermis, releasing the maximum of their **draining and lipolytic potential**.

EXTRACTS OF BIRCH AND CENTELLA ASIATICA

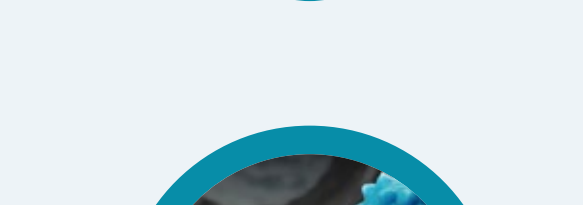

Draining and vasotonic action to improve skin microcirculation and vascular tone, contributing to the **reduction of cellulite-related imperfections**.

ALMOND AND RICE OIL

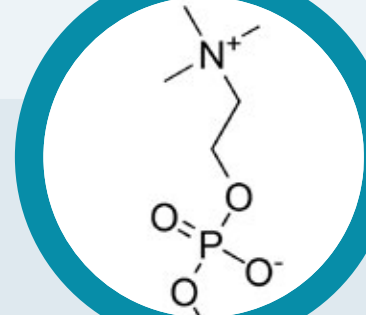

Due to its high composition in essential fatty acids, it has highly **moisturizing and emollient** properties. Rich in vitamin E, vitamin B and **antioxidant substances** that prevent skin aging.

LIPODRON

COSMETIC DRONE

Latest generation active with an innovative mechanism that **releases active ingredients in a selective and controlled manner**, enabling a **targeted action on adipocytes** and increasing the **lipolytic effectiveness** of the product.

PHOSPHATIDYLCHOLINE

Phospholipid that **promotes the lipolytic activity and penetration of other substances** in the treatment to counteract localized adiposity.

CAFFEINE AND CARNITINE

Active ingredients with a recognized **draining action** that helps to reactivate cellular metabolism, **stimulating lipolysis**.

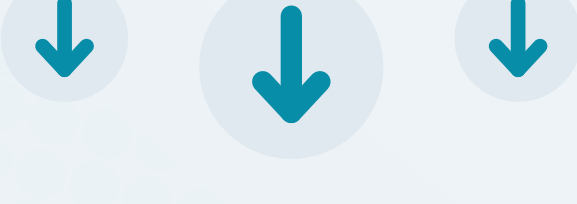

EXTRACTS OF ESCIN AND CENTELLA ASIATICA

Vasoconstrictive and anti-inflammatory actions, essential to improve circulation and enhance capillary defenses.

HOW TO USE

DRENIOCELL

1

In the morning and in the evening apply an adequate amount of product **from the ankles to the glutes/hips**.

2

Massage until it is **completely absorbed**.

LIPODRON

1

In the morning and in the evening apply an adequate amount of product **on the waist and abdomen-hip area**.

2

Massage until it is **completely absorbed**.
