ALL-ROUND BODY CARE HAS NEVER BEEN SO EASY AND QUICK

Panestetic laboratories have taken the success of the body technology par excellence and made it even more incredible.

FROM NOW ON, ONLY ONE PIECE OF EQUIPMENT IS NEEDED TO ACHIEVE ANY BEAUTY GOAL FOR THE BODY, EFFORTLESSLY.

Eosonic revolution is the multifunctional body equipment **totally independent from the operator** that is a must-have in any beauty salon, because it meets every need and allows you to work both on total body and in a targeted manner on individual zones.

ELEGANT AND INNOVATIVE DESIGN
WITHOUT SACRIFICING PRACTICALITY

1 TIME SAVING

Totally independent from the operator, Eosonic R3volution is perfect for those who have no time, allowing them to **optimise their time** in the beauty center and to carry out two treatments at the same time.

3 MAXIMUM CUSTOMIZATION

Everybody is unique and has different needs, also depending on age, which is why Panestetic has created Eosonic R3volution, to offer **all-round body solutions and help women and men feel comfortable in their own bodies** and feel good about themselves, already from a young age.

2 MULTIFUNCTIONAL

Different technologies combined in the same protocol to achieve a single **multi-action, multi-result treatment**.

4 TREATMENT DURATION

The duration of the treatment is also customisable according to each individual's needs. **From 20 minutes**, for those with little time, **up to 1 hour and 30 minutes** are possible.

8 DIRECT-CONTACT MULTI-TECHNOLOGICAL APPLICATORS

3 TECHNOLOGIES IN 1

to **work simultaneously on various imperfections and in a targeted manner** in the areas that need it, offering a highly customisable action based on the client's needs.

REAL COMPUTERS THAT WORK
AUTONOMOUSLY IN AN EXTREMELY
HIGH-PERFORMANCE WAY:
THE 3 TECHNOLOGIES WORK IN
SYNERGY, BOOSTING EACH OTHER

SHAPING WAVE

An even more advanced and sophisticated mechanical inelastic wave. The energy wave released by the plate creates a pressure force that is extremely **effective on localised fat deposits and cellulite**.

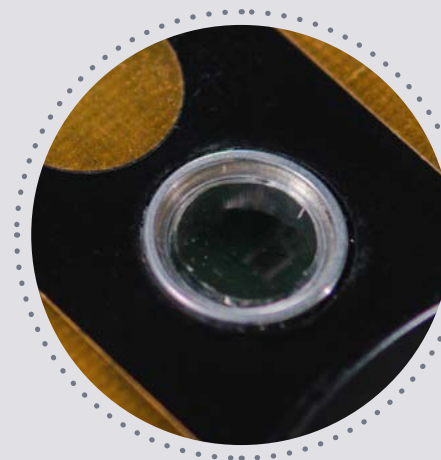

Depending on the imperfection and the selected programme, the frequency will work specifically on the receptors.

DUAL-FREQUENCY LED TREATMENT

A **dual-frequency LED** light treatment that works with a **pulsed frequency** at a double depth of 855 nm and 950 nm to ensure greater performance by increasing temperature and **accelerating the metabolic reactions of the tissue, thus regenerating it**.

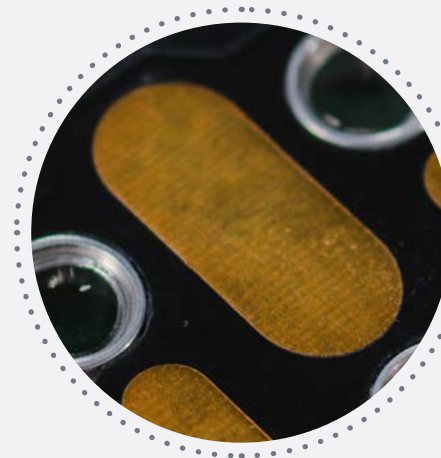

10 leds per applicator = 80 leds in total active during a treatment

A.G.F. ACTIVE GOLDEN FREQUENCY

Extremely advanced and quality radiofrequency treatment, **customisable to work with greater intensity in the areas where it is most needed, toning the tissues and working on the imperfections such as atony and cellulite**.

Gold foil favours high conductivity, thus enhancing the release of ions.

16 ERGONOMIC STIMULATORS

Ergonomically designed, these small contact electrostimulators **stimulate the muscle with variable frequency pulsations** (not annoying) and diversified contractile stimuli that create **deep muscle toning** and aid lymphatic drainage.

MEDICAL
STEEL PLATE

AS MANY AS 16 STIMULATORS TO
WORK TOTAL BODY IN ONE SESSION,
OR IN A TARGETED MANNER ON
SMALLER AREAS.

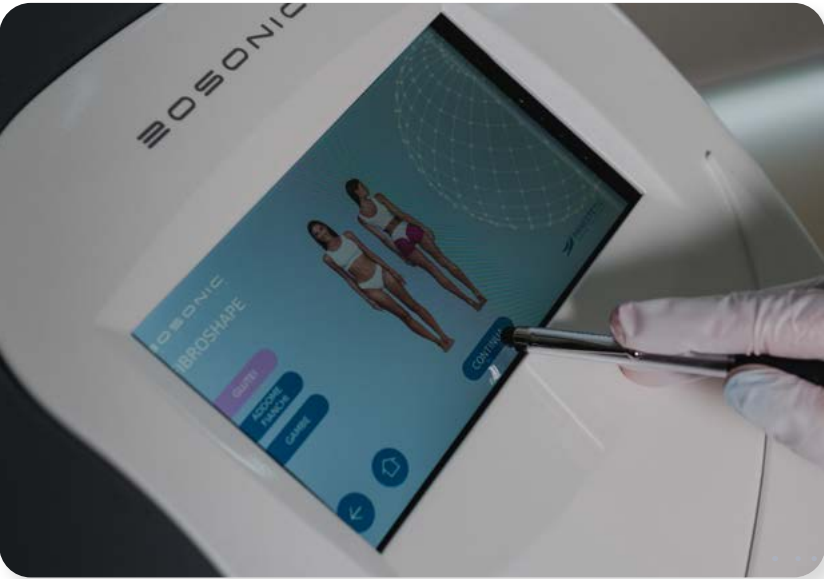

EOSONIC R3VOLUTION, THE NEW EFFORTLESS, PASSIVE MUSCULAR GYMNASTICS, FOR THOSE WHO DON'T HAVE TIME TO GO TO THE GYM BUT WANT TO TAKE CARE OF THEMSELVES.

4 PROGRAMMES

Depending on the client, the need and the imperfection to be treated, it is possible to choose among 4 programmes, **which can be customised and memorised for each individual client**

EASY, INTUITIVE AND INNOVATIVE SOFTWARE: FOR REVOLUTIONARY RESULTS

SOFTWARE AND INTERFACE

Practical **LCD touchscreen with easy and intuitive software** that makes treatment execution even easier and more immediate. Thanks to the selection of various parameters, **the treatment can be customised to individual needs.**

CHECK-UP ANALYSIS

Eosonic R3volution incorporates an **advanced Check Up Analysis system** that, based on the subject's parameters and needs, autonomously sets the programme and timing of the treatment to be carried out. Moreover, programmes can be saved to be repeated in subsequent sessions.
