

LUNYA

AGE FUSION TECHNOLOGY

THE NEW ERA OF
FACE TREATMENTS
HAS STARTED

PANESTETIC
FUTURE FOR BEAUTY™

BEAUTY IS ABOUT TO ENTER A NEW ERA...LUNYA IS READY TO **REVOLUTIONIZE FACE TREATMENTS.**

From the Panesthetic laboratories comes this new technology that redefines face treatments with a **deep and regenerating action!**

Inspired by the moon, a symbol of femininity and rebirth, **LUNYA is the innovative technology that helps the skin regenerate and regain its radiance.**

Just as the moon goes through phases of light and shadow, the skin can also go through moments of fatigue, but with Lunya's treatments it always shines again.

IT'S TIME TO SHINE WITH LUNYA!

Thanks to its advanced and innovative engineering, LUNYA combines **8 state-of-the-art technologies that work in synergy and merge into 3 handpieces**, for immediately visible results from the first session.

8 LATEST GENERATION TECHNOLOGIES IN 3 EXCLUSIVE HANDPIECE

1. ENDOLUX

An extraordinary novelty that combines the vibrating endodrainage action with the innovative LED light therapy, recognized for its rejuvenating action on **photo and chrono aging** and **antibacterial function**.

The **synergy** of the two technologies that boost each other allows for even more high-performance results of treatments against the signs of aging.

YELLOW AND RED LED LIGHT THERAPY

It works on
signs of aging

BLU LED LIGHT THERAPY

It works on **impure
and acne-prone
skin**

2 
**multifunction
handpieces**
that perform multiple
actions in a single step

1

It delivers the active ingredients of the cosmetics applied before.

2

It performs a **draining endomassage** on the tissues.

3

It stimulates cellular metabolism with **energy booster function**, to counteract the signs of aging.

4

It generates a **sensory stimulation** thanks to its vibration.

5

It improves impure and acne-prone skin thanks to its **antibacterial action**.

2. HYDRO SYSTEM

A special facial cleansing handpiece that performs a **deep exfoliation** with liquid peeling, combined with vacuum technology to revitalize the tissues.

This innovative technology combines in a single handpiece the actions of skin cleansing and detox with deep exfoliation and extraction of impurities, thanks to 2 cleansing levels:

★ CLEANSE & DETOX

The first step of **cleansing and preparation**, to deeply cleanse and remove dead cells.

★ EXFO & EXTRACT

The second step of **exfoliation and extraction**, to unclog pores giving a smoother and more even complexion.

A unique technology with a **bidirectional action** that releases the product on the skin through a spiral movement. The liquid thus released is then aspirated by the handpiece together with toxins and impurities.

An indispensable working step as a preparation phase before carrying out any facial treatment, it is essential to counteract skin aging.

3. B-LIFT FUSION

A unique technology that combines a double **radiolift action with photobiostimulation** to stimulate collagen and elastin production, tone the skin and give a **visible lifting effect**, treating all the signs of skin aging.

Thanks to the innovative possibility of choosing between **2 different frequencies, which work at different depths**, and being able to work separately with only photobiostimulation, **different combinations can be created to customize the treatment** to the maximum depending on skin type and blemish to be treated.

2 FREQUENCIES = 2 DIFFERENT DEPTHS

Deeper > **LIFTING ACTION**

More superficial > **REPLENISHING AND FILLING ACTION**

SOFTWARE AND INTERFACE

A convenient **LCD screen with easy and intuitive software** makes the execution of the treatment simple and immediate, allowing you to select the various parameters to customize the treatment according to each customer.

The software can also always be **updated to the latest version** thanks to constant updates that take place remotely.

AN EXCLUSIVE OPPORTUNITY!

With LUNYA you can also perform a **SCALP STIMULATION** treatment, which strengthens hair growth.

ELECTRA TECH COSMETICS PRODUCTS

When technology and cosmetics meet. A range of specific cosmetic products, designed to work in synergy and boost the direct action of the technology.

WHY CHOOSE LUNYA?

INNOVATIVE

It combines the **latest generation technologies** to treat all skin types and all ages.

CUSTOMIZABLE

It allows you to **diversify treatments according to the needs**, thanks also to the combination of the various technologies with cosmetic products.

EFFECTIVE

High-performance in any situation, with **visible results** from the first session. It also increases the effectiveness of the treatments carried out subsequently, becoming an indispensable preparatory step.

PROFITABLE

The treatments carried out offer a **great source of income**, which will allow you to amortize the initial investment in a short time.

EASY TO USE

Thanks to the **touchscreen** and **intuitive software**.

SAFE AND RELIABLE

Entirely **made in Italy**, built in conformity with all legal regulations.

PROTOCOLS FOR EVERYONE

A set of working protocols that are **detailed and differentiated** depending on the blemish to treat, with short 20' treatments up to complete 1h 30' treatments.

CONSTANT PRESENCE FOR A **WINNING PARTNERSHIP**

A complete installation service, training, support and after-sales service.

Specific training to acquire all the necessary skills

Even more efficient customer service thanks to remote connectivity

Marketing support

Prompt technical assistance

Discover the advantages of Panestetic's promise of a true long-term partnership.

Panestetic, an Italian company that has been a leader in the production of aesthetic and electromedical machinery for more than 40 years.

From the great experience gained in the research and development of new technologies, the company has developed a range of specialized cosmetic products, to be combined with professional machinery for an intense synergistic action and even more effective results.
